CONDITION OF THE MARKETS

"Bull" News Regarding Russian Exports Fizzled and Cereals Took a Fall.

Chicago Wheat Gave Way Until It Reached 973-4 Cents, When the "Shorts" Raked in a Good Profit-Corn Growing Weaker.

MONEY, STOCKS AND BONDS.

New York Central's Rumored Increase in Dividends Furnishes a Sensation. NEW YORK, Oct. 16 .- Money on call was easy, ranging from 3 to 312 per cent.; the last loan being made at 3, closing offered

Prime mercantile paper 5% @71/2 per cent. Sterling exchange was quiet but firm at \$4.80% for sixty-day bills and \$4.84 for de-

at 3 per cent.

mand. The total sales of stocks to-day were 276,683 shares, including the following: Atchison, 52,600; Chicago Gas, 4,300; Delaware, Lackawanna & Western, 10,600; Erie, 9,470; Louisville & Nashville, 14,300; Missour! Pacific, 14,400; North American, 4,342; New York Central, 4,500; Northern Pacific prefered, 10,800; Reading, 11,260; St. Paul, 26,300; Union Pacific, 18,500.

The stock market to-day was more active and decidedly stronger, material gains being the rule all over the list. The chief impetus to the new upward movement came from abroad, and the foreigners were liberal buyers of all their specialties. The infinences which led to this result were the action of the governors of the Bank of England in keeping their minimum rates of discount unchanged at 3 per cent., the taking of the new Russian loan in France and the general easier feeling in all the European financial centers. operators aid not respond with alacrity to this movement on the part of the foreigners, but enough new buyers appeared to keep the market moving along and to swell the volume of business to respectable proportions. The material gains, however, were generally among the shares having an international market, the rest of the list following at a safe distance throughout the day. The great feature of the trading was the sharp rise in New York Central, which was not only more active than for a long time, but at one time showed a gain of 2% percent. over its last night's figure, the buying being based on a rumor that there would be an increase in the dividend rate when the next dividend is declared. Atchison again led in the dealings, but it was comparatively sluggish when compared with other stocks, even though it closed with a material advance. The general list and specialties were never prominent in the market, and as a rule were traded in within narrow limits and scored insignificant gains for the day. The traders again hammered the list and succeeded in bringing about a temporary check to the upward movement, but prices were soon again moving upward all along the line. From the first half bour there was no real interruption to the steady advance, and among the stocks mentioned the gains assumed material proportions as the day wore along. The strong and confident tone was maintarned to the end, and the market finally closed quiet, but strong, at or near the highest prices of the day. The important gains include New York Central, 1%: Louisville & Nashville, 14; Union Pacific, 14; Northern Pacific preferred, 1's; and Lake Shore, Atchison, and Missouri Pacific 1 per cent. each.

Railroad bonds felt the stimulus to trading, and the market was not only decided ly more active than usual of late, but a strong tone marked the dealings throughout the day, leaving most of the active issues materially higher than the last previous sales. The Atchison incomes and Colorado Midland fours were most conspicu-

ous. Total sales, \$1,785,000.

Government bonds have been dull and firm. State bonds have been dull and steady. Closing quotations were:

Ruying Orders Were Scarce and There Was Nothing to Check the Drop. CHICAGO, Oct. 16 .- The tone of the wheat market this morning was exactly the reverse of that which prevailed at the close yesterday. Then it was strong on a

had cut off the exportation of oats was | The demand for copper is large, but a treated with ridicule. The result was that both "longs" and "shorts," who were such eager buyers near the close yesterday. were ready sellers this morning in spite of fair buying orders from New York. Cables were weak and lower, reports from the Northwest gave heavy receipts and the weather clear, though the signal service predicted rain to-morrow. The offerings were in excess of the demand. hence the market opened lower, receded gradually during most of the session, then reacted some on rather better cables and good buying by "shorts" who chose to accept their profits. Hutchinson's brokers also bought in the break, and New York finally turned seller for quite heavy lines. In the early dealings Schwartz-Dupee were said to have selling orders for foreigners who were "long" in this market. December opened at 982 c, sagged slowly off to 974c, reacted to 985c, and closed at 984c. Corn was exceedingly weak, partly in sympathy with wheat, partly on account of the failure to confirm Russia's report of prohibition of corn exports and partly to the increasing receipts of new corn, fifteen cars having arrived to-day. "Longs" were discouraged, and such as had not liquidated yesterday sought to market their stuff, but found few buyers. In the competition to get rid of it October fell from 52 a 52 c at the opening to 513sc, but reacted later, as "shorts" took advantage of the break to cover, and this sent the price up to 527sc. with 52% c at the close. A good demand for cash corn toward the end of the session was also a strong factor.

Oats were quiet and easy during the first balf of the session, but firmed up with other cereals near the close. Hog products were easier. The "short" demand seemed to have been pretty well satisfied yesterday, and the local longs were inclined to sell, while the outside demand was light. The tendency was downward till the latter part of the session, when there was a partial recovery with corn. Pork is 124 @ 174 c lower, lard .674 c and ribs .05@.0742c. The leading futures

DUN & CO.'S WEEKLY REVIEW.

20 282c. Cheese moderately steady; West-

ern, 7@9c; part skims, 4@712c.

The Woolen-Goods Manufacture Is the Only Business Now Not at Its Best.

NEW YORK, Oct. 16,-R. G. Dun & Co.'s weekly review of trade says: Business throughout the West and South is strong and improving. At Eastern centers there is less satisfaction, and the expected results from the harvesting of large crops are more slowly realized. Yet the volume of all trade is as large as it ever has been, and for October may even surpass the unprecedented record of last year. The prevailing confidence in the future of busi ness continues unabated, and is seen even in some branches which complain most of dull trade at present. The iron industry illustrates the contradictory conditions. The output of furnaces in blast Oct. 1 was 181,615 tons weekly, yet this enormous production is marvelously absorbed. The demand for use in produc-ing all kinds of farm machinery and implements is far greater than it has been in any previous year and the quantity of iron thus used is foremost. On the other hand, the wool manufactories are short of orders in the men's wear department, though Chicago clothiers are buying freely. But, on report that the Russian government had | the whole, clothiers have not taken nearly prohibited the exportation of corn. This | their neual supply of goods and many of was not confirmed, and another report coming from New York to the effect that Russia facture is active without change in prices. The cotton manu- dull as well as carpets. The cotton manu- facture is active without change in prices. The market closed slow at no material white extra C, 4% a4% c; coffee A, 4%

rumor of resumption by the Anaconda mines put down the price of lake to 12.15c. Tin is weak at 20.10c with lead at 4.44c. The market for anthracite coal is better, but

circular prices are not realized.

The reports from other cities are almost uniformally encouraging. At Pitteburg the demand for manufactured iron and especially for structural forms is improving, but the coal strike continues. At Cleveland trade exceeds last year's considerably and is brisk at Cincinnati, especially in dry goods. At Chicago the clothing and dry good trades are active and the movement of farm products large, though receipts of cattle fall below last At Detroit manufacturing is active and factories are running full time. At Milwaukee, St. Paul, Minneapolis, Omaha and Kansas City, business is very active, especially in lumber at Minneapolis, with advance in prices, while the output of flour is 195,000 barrels per week, against 151,000 last year. At St. Louis trade is un-usually strong. At Louisville, Nashville and New Orleans improving; at Montgomery. Charleston and Savanah receipts of cotton are very large and business grow-ing; at Jacksonville the largest orange crop ever grown promises improvement. Speculation has not been very heavy, though corn and oats are sustained in the face of great crops and wheat is a shade higher. Cotton is 4c lower. Pork products are lower, coffee unchanged and Foreign trade, though smaller than a year ago when the movement was extraordinary, is nevertheless larger than in previous years and the heavy exports of breadstuffspromise further reinforcements of gold from Europe. The business failures occurring through-

out the country during the last seven days number 259, as compared with a total of 270 for last week. For the corresponding week of last year the figures were 227.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points. ST. LOUIS, Oct. 16.-Flour was steady but quiet and unchanged. MINNEAPOLIS, Oct. 16.-The bears were decidedly on top when the wheat market opened this morning, and they had not given up the reins at noon. The opening was 9812c. The fluctuations were all below this figure, but the advances of 18c were about the equal to the declines of that extent. At 11 o'clock 93c had been touched, and then the bullish element in the crowd rallied and pulled the price back 4c and then 4c, and there it stood at noon. The pit presented no charms to the traders, and was deserted, except as an occasional effort was made to sell. The reports about 11 o'clock noted some cessation in selling, and this caused the market to react as mentioned, and saved it from going below 93c. Wheat: No. 1 Northern, October, opening at 914c, closing at 9.c; December, opening at 9312c, highest 9312c, lowest 93c, closing at 934c. Cash market: No. 1 hard, 94c. No. 1 Northern, 924c. No. Northern, 89c.

Market strong. INDIANAPOLIS MARKETS.

Sheep-Receipts, 600; shipments, 1,900.

Trade Improving Somewhat, with Few Fluctuations in Values. INDIANAPOLIS, Oct. 16 .- The whole sale men speak of trade as improving under the influence of the fine fall weather. While there is no boom on, the volume is healthy and bids fair to increase as the season advances, so favorable are the conditions. Fruits and vegetables are selling more freely, as the weather is such that the loss from decay is lessened. Foreign fruits are in light supply, bananas excepted. The receipts of Florida oranges are still meager, and prices rule firm. Cranberries are in good supply; prices weak.

feature. The local market is dull, prices ranging about as on Thursday. Track bids on 'Change to-day ruled as follows:

The poultry market is in better tone than

early in the week, but no advance in prices

is made. The glut in the Eastern market

has been somewhat relieved. Eggs are firm.

receipts light. Butter, if choice, meets with

ready sale. Other markets are without

Wrinkles and Sleep. Detroit Free Press.

"What shall I do to eradicate wrinkles that form in the night and mar one's beauty," asks a Detroit young woman. "Remove the cause," is the answer. Those deep, annoying lines found under

the eyes on arising are due to the pillow.

They remain at first for only a few

moments, but the places in which they form night after night will in a few years leave wrinkles that all the massage in the world will not rub out. Pillows as ordinarily made-filled with down or feathers—not only cause wrinkles, but by elevating the head above the body impede the circulation and tend to make round shoulders and hollow chests. It is much better to do without the pillow altogether, and, though it may be attended at first with some discomfort, one will get accustomed to it in a very short time. If the ordinary pillow must be used, and the lines form in consequence, the practice of lying on the back will retard them. If one doesn't wish to do wholly without a pillow, very flat ones, made of hair, will be found

to answer the purpose admirably.

and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP
"is a necessity." Don't let your dealer
give you some other kind, if he hasn't
Santa Claus, but insist on having only SANTA CLAUS SOAP. N. E. PAIRBANK & CO., Mfrs., Chicago, Ill.
